

A friend to commercial laundry services

Table linens, towels, sheets -- even diapers -- come to you covered in God-only-knows-what. The basics may be the same: dirty laundry comes in, dirty laundry gets cleaned and folded, clean laundry gets rented out. But the devil is in the details. There seem to be a million detergents and additives, for a million stains and fabrics. The Charlie's Soap family of cleaners is the simple solution. Increase your cleaning ability while decreasing cost, clutter and stress. Charlie's Soap was originally developed for use in textile quality control labs. It is formulated to work specifically with all washable fabrics, cleaning all the way to the fiber. Charlie's Soap will get it clean effectively, economically and safely. Charlie's Soap is:

The GREEN: 97% biodegradable in just a month. (Japan Food Research Labs)
Your customers will be safe because of our non-toxic formula.
Safe for septic systems.

That CLEANS: Nothing cleans as thoroughly as Charlie's Soap. (SGS Testing Labs)
Rinses away completely. (Clemson University School of Textiles)
Safe for anything washable: cotton, polyester, linen, silk, etc...
Minimal dose required.
Contains no perfumes, oils or fabric softeners.

Benefits of using Charlie's Soap:

- Minimal dosing required for effective cleaning:
 - 16 lbs. machine : 0.0625 fl. oz. per pound weight (liquid) or 0.03125 oz. per pound weight (powder)
 - 400 lbs. machine: 0.0475 fl. oz. per pound weight (liquid) or 0.02375 oz. per pound weight (powder)
- Wide range of temperature compatibility.
- Compatible with many builders (sodium carbonate, sodium percarbonate, potassium diphosphate, etc.) and disinfectants (chlorine bleach, 3% hydrogen peroxide).
- Charlie's Soap Indoor/Outdoor Cleaner Concentrate is available as a booster for extremely heavy soil or reclaim wash.

Before using Charlie's Soap in your commercial wash:

- Clean your machines of all residues of other detergents before washing your garments in Charlie's Soap. Put 2 TBSP of the Powder or 2 fl. oz. of the Liquid into the machine and some old rags and run a full cycle with a double rinse.
- Always use the full amount of Charlie's Soap for a load. Charlie's Soap will rinse completely so there is no need to worry about residue. Charlie's Soap needs that full amount to be effective. Call for info if you have hard water.
- Garments washed in detergents other than Charlie's Soap will have detergent residues in them. Please put wearable garments new to Charlie's Soap through an extra-long cleaning cycle before rinsing them again to remove those possibly irritating residues.
