

Charlie's Soap is safe for all your laundry!

If you wear clothes, then you can use Charlie's Soap. If you don't, then I don't think we want to know about it. Not everyone has high-performance polypropylene, Gore-Tex or microfiber cloth diapers that they have to wash. But almost everyone has a pair of socks and underwear that they wash in a washing machine. Walking down the detergent aisle, you get inundated with choices of fragrance, color and additive, but they're all practically the same, ineffective detergent.

Charlie's Soap doesn't rely on fancy smells or colors. None of that means anything. Charlie's Soap just cleans. It takes the dirt, the sweat, the blood, the odor and just washes it away. And it does it effectively for all your washable laundry, not just the fancy stuff. You name it; Charlie's Soap can clean it because it's ...

The GREEN. 97% biodegradable in just a month (Japan Food Research Labs)
Your family will be safe because of our Non-Toxic formula.
Our products are safe for septic systems.
Charlie's Soap is non-toxic.

That CLEANS. Nothing cleans as thoroughly as Charlie's Soap. (SGS Testing Labs)
Use on any washable fabric: cotton, polyester, neoprene, washable wool, etc...
It rinses away completely leaving nothing at all to prematurely wear down your clothes. (Clemson University School of Textiles)

NEW USERS: PLEASE READ THE FOLLOWING INSTRUCTIONS CAREFULLY

1. Please follow all care instructions on your garments. Charlie's Soap is safe for all fabrics that are made to be washed with detergent and water.
2. Pre-treat stains as necessary with Charlie's Soap Laundry Pre-Spray.
3. Run a large/heavy empty load with two doses of Charlie's Soap Laundry Liquid or Laundry Powder and a few old rags to clear your washing machine of any residue left by other detergents.
4. **It may take a few washes before residues from your previous detergent are completely removed. Once they are, you should start to notice the long-lasting benefits of Charlie's Soap for Laundry – low suds, softer clothes, clean scent. For a good demo, wash the same load (e.g., bath towels) three consecutive times. Your clothes will get cleaner each time you wash them in Charlie's Soap. When in doubt, rewash.**
5. If you have hard water, consider adding Charlie's Soap Booster to your wash.
6. If you have any questions, please call or email us at info@charliesoap.com.
