

Charlie's Soap can help you bag the big one!

If you hunt, then you know there's more to it than having a better weapon. You've got to have the whole package. It's not just what YOU can see or smell; it's what the game can see and smell. You know your detergent can't have brighteners or perfumes, but it has to work and not destroy your expensive gear. Why have one detergent for your hunting gear and another for the rest of your laundry and your regular life? Charlie's Soap can do it all, economically. Kill the scent, clean your gear, protect and restore your garments' functionality with Charlie's Soap. Charlie's Soap is:

The GREEN: 97% biodegradable in just a month. (Japan Food Research Labs)
Your family will be safe because of our non-toxic formula.
Safe for septic systems or for use around lakes and streams.

That CLEANS: Nothing cleans as thoroughly as Charlie's Soap. (SGS Testing Labs)
Rinses away completely. (Clemson University School of Textiles)
Safe for anything washable: polyester, neoprene, Gore-Tex, etc.
Restores waterproofing.
Contains no optical brighteners or perfumes.

For washing your hunting gear:

The Preparation

- **Clean your washer** of all residues from other detergents. This can be accomplished by:
 - Washing a load of rags or daily-use towels already cleaned in Charlie's Soap.
 - Or by wiping down the drum with Charlie's Soap Kitchen & Bath.
- **Strip your hunting outfits**
 - Wash with 1 FULL DOSE of Charlie's Soap following care instructions.
 - Repeat that step at least four times to fully remove old detergent residues. They can be irritating and game can pick up on it.

The Daily Routine

- **Clean your washer** as indicated above. Yes, again. Read on to see why.
 - If you are new to Charlie's Soap and use it for all your laundry (a wise choice!), old residues are still coming out of your regular clothes. They can contaminate your hunting clothes. After a few weeks, you can skip this step.
 - If you are using another detergent for your regular clothes, that residue will contaminate your gear. You will have to always clean the washer.
- **Wash your hunting gear** following care instructions with plenty of water and agitation.

To clean and maintain your hard gear: Use Charlie's Soap Kitchen and Bath Natural Cleaner.

- Spray on, let sit, rinse off.
- Perfect for cleaning heavy soil from weapons, cleaning tools, tents, boots, etc.
