

Get wet. Get dirty. Get clean with Charlie's Soap

You want to get out on the water, get wet and have fun. And after the fun is done, you just have to clean something. Your options are severely limited. Many cleaners and detergents are bad news to Mother Earth; and most are hardly portable. So what can you do? Charlie's Soap is the answer to getting clean and staying Green, whether you are on the river, on the lake or in the ocean. If you are not afraid to get dirty, then you do not have to be afraid to get it clean with Charlie's Soap. Charlie's Soap is:

GREEN: Internationally certified biodegradable and safe for the environment. (Japan Food Research Labs)
Protect your family and marine animals with our non-toxic formula.
Charlie's Soap was not tested on animals.
Safe for use on the ocean or around lakes and streams

CLEAN: Nothing cleans as thoroughly as Charlie's Soap. (SGS Testing Labs)
Rinses away completely (Clemson University School of Textiles)
Safe for anything washable: cotton, polyester, neoprene, Gore-Tex.
Performance garments will maintain their functionality: all-weather gear stays waterproof, wicking garments still wick, breathable fabrics stay breathable.

To clean your boat:

- Mix ¼ cup of Charlie's Soap Indoor/Outdoor Surface Cleaner per 5 gal of water in a bucket.
- Sponge or brush on hull, deck, sails, engine housing, waterproof furniture.
- Allow to sit for around five minutes and then hose off with water.
- Spray engine compartment (except electric coils) with half strength Indoor/Outdoor Surface Cleaner, allowing to sit for 5 minutes, rinse off.

For light washing and treatment of soft gear:

- To eliminate odors and bacteria, prepare a tub of tap water and add 1 TBSP of Charlie's Soap Laundry Powder or 1 fl. oz. of Charlie's Soap Laundry Liquid.
- After the day's activities, submerge gear in the Charlie's Soap, working the gear up and down a few strokes. Works great on: bathing suits, wet and dry suits, life jackets, shoes, etc.
- Rinse clothes if possible with water hose while hanging.
- Hang dry.
- Use a small amount of disinfectant to kill any remaining germs.

Keep your hard gear clean:

- Prepare 25% dilution of Charlie's Soap Indoor/Outdoor Surface Cleaner
- Spray on surfaces: boats, paddles, skis, sails, vehicles, trailers, etc.
- Brush at dirt, grease and grime.
- Wipe off or rinse. Hang dry.
