

Charlie's Soap keeps your ride showroom clean

Just about everyone has a way of getting around that involves wheels. Cars, trucks, race cars, motorcycles, scooters -- they all get dirty. Washing can be fun, but it can get expensive, too. They tell you to get a tire cleaner, upholstery cleaner, wheel cleaner, engine degreaser, window cleaner, and then another cleaner for the rest of the car! That's a whole lot for just a little bitty vehicle. It doesn't have to be that complicated. Charlie's Soap Indoor/Outdoor Surface Cleaner gets it done. A little can go a long way. No matter how fast it goes, Charlie's Soap can clean it safely, effectively, and economically. Charlie's Soap is:

- GREEN:** 97% biodegradable in just a month. (Japan Food Research Labs)
Your family will be safe because of our non-toxic formula.
Safe for storm drains.
- CLEAN:** Targets the stains, not the surface. Will not damage the clear coat.
It rinses away completely. (Clemson University School of Textiles)

Start with the tires, wheels and undercarriage:

- Spray Charlie's Soap Indoor/Outdoor Surface Cleaner liberally.
- Allow to sit. NOTE: Do not apply to hot wheels. Rinse polished aluminum surfaces within five minutes.
- Rinse when you finish washing the car.

Move onto the body: Metal, plastic, rubber, vinyl or canvas

- Mix ¼ cup of Indoor/Outdoor per 5 gal of water.
- Sponge or brush on one quarter panel at a time, including windows.
- Allow to sit for around 5 minutes (MAX) and then hose off with water.
- Note: Dirty Indoor/Outdoor mixed with water will continue to clean, but be wary of grit.
- Spray engine compartment (except electric coils) with half strength Indoor/Outdoor allowing to sit for five minutes, and rinse off.

Detail the interior with Kitchen & Bath Cleaner half strength

- Works great on leather and vinyl upholstery and plastic surfaces.
- Apply diluted Kitchen & Bath to surface conservatively.
- Allow Kitchen & Bath to sit a moment to work its way behind grease and grime.
- Wipe off with a dry towel, or wet chamois.
- NOTE: Not recommended for interior windows.

For spots on fabric upholstery: Use Charlie's Soap Indoor/Outdoor full strength.

- Wet the area and spray Indoor/Outdoor **once** on the spot.
- Let it sit for a few minutes, and then agitate with a stiff brush.
- Add water and extract with a wet/dry vacuum.
