

Charlie's Soap

GREEN. CLEAN. GUARANTEED.

Be kind to your skin with Charlie's Soap.

They tell people suffering from sensitive skin to use a mild detergent, or a hypo-allergenic detergents or even a poorly-named "free and clear" detergent. You can find a mild detergent, but how well did it clean? Hypo-allergenic detergents leave a residue that is soothing to the skin, but that's just it. It leaves a residue! Free & clear detergents have to be the worst name for them. Try to dissolve some in a glass of water and you will quickly see that they are neither.

Well, it doesn't have to be that big a chore. You can de-clutter your laundry room, and de-stress your life with Charlie's Soap – one safe, effective and biodegradable detergent to clean all your soft, soothing clothes.

Charlie's Soap is:

- ✓ CLEAN.
 - Nothing cleans as thoroughly as Charlie's Soap. (SGS Testing Labs)
 - Use on any washable fabric: cotton, polyester, neoprene, etc...
 - It rinses away completely leaving nothing at all that can touch sensitive skin. (Clemson University School of Textiles)
- ✓ GREEN.
 - 97% biodegradable in just a month (Japan Food Research Labs)
 - Your family will be safe because of our Non-Toxic formula.
 - Our products are safe for septic systems.
- ✓ GUARANTEED.
 - We believe in only making products that work well.
 - Use as directed and your skin will love you.

Thank you for considering Charlie's Soap. We feel confident that you have made the right choice in detergent. We are here in case you have any questions. Let me take a moment to explain how to use Charlie's Soap to clean your clothes so that you can finally stop itching!

CLEAN. CLEAN. GUARANTEED.

Charlie's Soap

GREEN. CLEAN. GUARANTEED.

- 1) The machine should be cleaned of all residues of other detergents before washing your clothes in Charlie's Soap. Put 2 tbsp of Powder or 2 fl oz of Liquid into the machine and some old rags and run a full cycle with a double rinse.
- 2) Always use at least the full amount of Charlie's Soap for a diaper load: 1 fl oz for Liquid or 1 tbsp for Powder. Charlie's Soap will rinse completely so there is no need to worry about residue. Charlie's Soap needs that full amount to be effective on diapers. More could be required for excessive stains. Call for info if you have hard water.
- 3) Clothes that have been washed in anything other than Charlie's Soap likely have detergent residues. Charlie's Soap will clean those residues to the exclusion of other stains until they are gone. It may take several washes with a full dose of Charlie's Soap to remove those residues, not just bring them to the surface of your garments. It is advisable to wash clothes that are new to Charlie's Soap 2 or 3 times before wearing them. We want to ensure that nothing touches your skin but clean clothes.
- 4) If you develop itching from clothes washed in Charlie's Soap, take that garment aside and wash it alone twice with Charlie's Soap, each time with a double rinse. This is a sign that not all the old residues were removed. They have only been pulled to the surface where you can feel them. A quick two washes should alleviate that problem.

Thank you again for choosing Charlie's Soap. Call us if you have any questions at all. We're always willing to help.
